

Final Project Q&A

How would the grading be done?

- Peer evaluation (a quorum) during the presentations; two times – proposal and final
- Peer evaluation ranking the performance (e.g., Great/Good/Fair) plus voting for Top 5.
- Peer evaluation earning participation credit.
- Invited third party (Presentations)
- Instructors (Presentations/Written report/Deliverables)

What should be included during final presentation?

- Record your Dash demo to produce a video clip and/or publish Dash demo for peers.
- Try published Dash demo or review the submitted video clips and prepare questions.
- Give Dash demo highlights during the final presentation time.
- Q&A between the presenter and the audience

What makes an ideal final term project and presentation?

- Offering a cohesive set of visualization modules integrated into Dash.
- Good design of visualization elements including color choices, labeling, titles, etc.
- Incorporating interesting/intriguing/challenging “**your own**” data analytics – verbatim blog analytics is not.
- Maintaining a good balance between quantity and quality
