

CSE 5520 Fall 2021

Proposal Presentation

Time: Session 1: 5:00– 7:30 pm, October 27 (Wed), 2021

Session 2: 5:00– 7:30 pm, November 3 (Wed), 2021

Medium: HuskyCT (recorded session*)

Guideline for Proposal Presentation

Each speaker should prepare a 5 min presentation. After presentation the audience and the speaker will engage in a short Q&A session so that each presentation can be completed within 7 min. We will use 1 min for transition between speakers. This proposal presentation is an opportunity for you to formalize your project. You will see your peers' presentations. You will get some feedback. This experience should help you adjust your project plan as you progress further into the semester and better understand the problems and opportunities. Your presentation should include the following type of information.

1. Goal(s) and overview of your project – Invent a project name or dashboard name. It is basically the abstract of your project.
2. List examples of problems and examples of analyses you plan to support through the data visualization and through your dashboard
3. Identify and list data sources.
4. You are welcome to include some mockup visualizations in your presentation (e.g., on PPT). You should delineate which ones would be easy to accomplish and which may be more challenging.
5. You conclude your presentation by giving a short live demo of your prototype Dashboard system which you will be developing in Part 1 of Homework 6 and even an extended version using your project data.

27-Oct	3-Nov
5:00	5:00
5:08	5:08
5:16	5:16
5:24	5:24
5:32	5:32
5:40	5:40
5:48	5:48
5:56	5:56
Break	Break
6:00	6:00
6:08	6:08
6:16	6:16
6:24	6:24
6:32	6:32
6:40	6:40
6:48	6:48
6:56	6:56

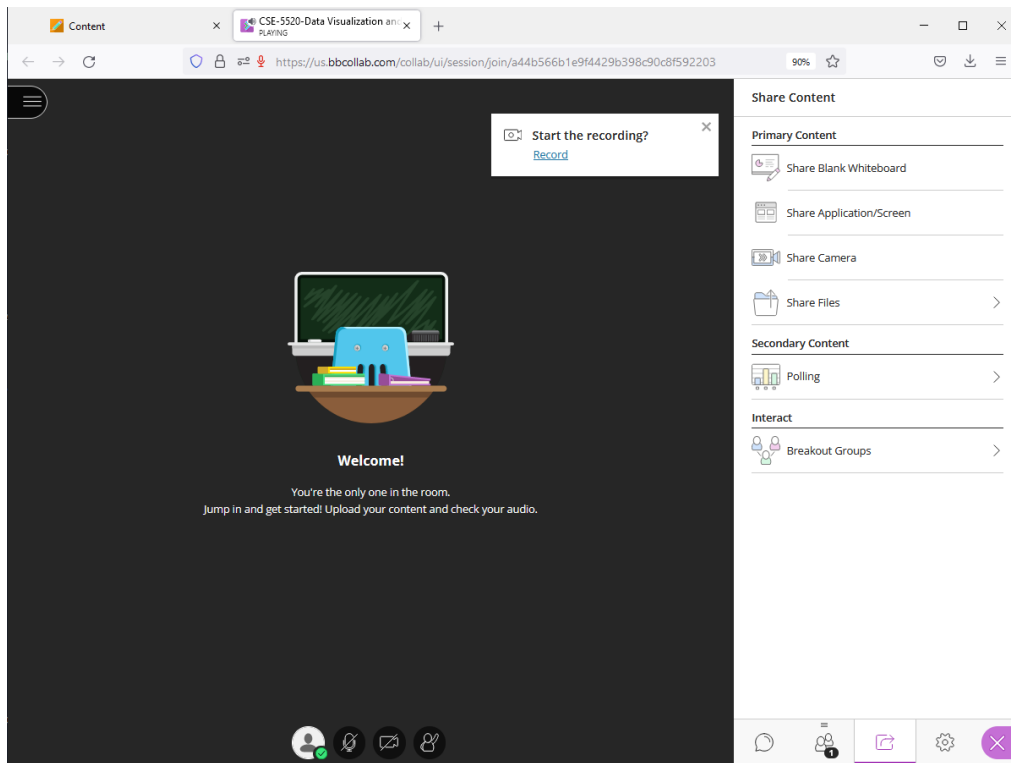

Each of you should prepare a visual aid (e.g., PPT) for your presentation which can include items described in the above.

Audience will be given Peer Evaluation form which should be filled and submitted to HuskyCT after both sessions are over. Participation credits are assigned for the submission.

To minimize the transition time between presenters, speakers should have the sharable materials ready for Collaborator sharing and should practice how to share these from your computing environment. Help materials are given below.

* Recording must not be used outside of the UCONN learning environment.

1. Click Arrow button at the bottom right and then choose Share Application/Screen

2. Click the drop-down arrow next to “Select window or screen”
3. Choose the screen you would like to share.
