CSE 5520 Fall 2021

Q&A related to Final Project and others

Question: How is homework extra credit used?

Answer: Homework extra credits can be used to make up lower than expected performances in various areas such as QUIZ, Project Presentation, etc. and also in different Homework problems.

Question: The 3 reviewers will look at our dashboard AFTER the presentation on our assigned date, right? When is the presentation video due? The date we chose to present?

Answer: Since this is a compound question, please see the related questions/answers below.

Question: When do you want us to submit our video?

Answer: Deadlines for video upload to each one's dashboard are midnight of Dec. 7 (Tue) for Dec. 8 (Wed) presenters and midnight of Dec. 10 (Fri) for Dec. 13 (Mon) presenters. Please note that Dec. 11 and 12 are reading days and no deadline is allowed during this period. How to upload video to a dashboard is provided in the uploaded file, "video_clip_publication_using_Dash", a topic each of you should know how to do.

Question: Can I update my video after uploading it to my dashboard?

Answer: Yes, you can, but please note that the designated reviewers will start to examine your submission once it is uploaded by the deadline--explained in "Schedule_Grading_Policy_Update" which has been uploaded.

Question: And the reviewers will review the dashboard after the presentation?

Answer: No, the reviewers should be able to view the video and explore your dashboard once you published the dashboard – Please see "Schedule_Grading_Policy_Update".

Question: Ok so when are the reviewers looking at the dashboard?

Answer: Reading the same answer, the reviewers should be able to view the video and explore the dashboard once the presenter published the dashboard. That is, from the midnight of Dec. 7 (Tue) for the reviewers assigned for Dec. 8 (Wed) presenters, and from the midnight of Dec. 10 (Fri) for the reviewers assigned for Dec. 13 (Mon) presenters – Please see "Schedule_Grading_Policy_Update".

Question: By when do we need to publish the dashboard?

Answer: Deadlines for dashboard publication (including video accessible from it) are midnight of Dec. 7 (Tue) for Dec. 8 (Wed) presenters and midnight of Dec. 10 (Fri) for Dec. 13 (Mon) presenters. Please note that Dec. 11 and 12 are reading days and no deadline is allowed during this period. You may modify/update your dashboard but again please note that reviewers may start their evaluation once the dashboard is published.

Question: Are we presenting separately from the video that we submit?

Answer: Most likely. Once 4 min video play is over during your presentation, there will be a 3 min Q&A session. Each presenter invites questions from both the three designated primary reviewers and anyone

from the audience. There is a good chance you might interactively show your dashboard to field the questions.

Question: Do we need to show our dashboard in presentation?

Answer: Dashboard presentation should be included in the 4 min video, but additional showing can be done during the 3 min Q&A period, as stated in the above.

Question: When is the writeup due?

Answer: Midnight Dec. 19th, 2021 as this deadline has been indicated in the writeup template. – Please see "Schedule_Grading_Policy_Update".

Question: When will we be assigned our dashboards to evaluate?

Answer: Each presenter will be assigned with 3 reviewers and this assignment notification will come soon. Ideally, Dec. 8 (Wed) presenters will serve as reviewers for Dec. 13 (Mon) presenters and vice versa. However, due to unequal number of presenters in the two sessions, clean separation may not be possible, meaning some of Dec. 8 presenters will be evaluating some presenters scheduled for Dec. 8.

Question: Can we still update/modify dashboard after the oral presentation?

Answer: Yes, you can. You can include the most Up-To-Date visualizations in your final writeup which is due Dec. 19 midnight. But please note that Peer Evaluations are frozen once submitted, i.e., Dec. 9 midnight for Session 1 and Dec. 14 midnight for Session 2 – Please see "Schedule_Grading_Policy_Update":
